

READY TO BRING PEOPLE AND IDEAS TOGETHER?

Team collaboration is an essential part of an effective workplace today. With Totara Social, everyone has an easy way to communicate, collaborate and innovate.

KEY BENEFITS

GET EVERYONE INVOLVED

No more back-and-forth email chains—easily loop partners and customers into conversations and projects, ensuring everyone is included. Boost team engagement and efficiency across departments, offices and geographies to support workflow processes. You can also showcase achievements for the all-important connections that bring organisations to life. Your people can work on projects alone or with others, collect feedback through comments and votes and return the favour with your own ideas.

SHARE YOUR IDEAS

Create content, embed external media, collate resources, write blogs, interact with forum posts, watch videos and share it all with your networks for the ultimate social experiences. Contribute insights and opinions by adding comments to posts, pages and feeds, joining discussion forums and using individual or group chats.

CONTROL THE NOISE

When you're ready to share your thoughts through blogs, pages and posts, you can choose the audiences to receive the post. You decide what you hear and who you hear from with connections, groups and tags. Choose when you hear news with notification settings. Share your content with your connections, groups or everyone on your Social site.

DISCOVER WHAT MATTERS

Keep your finger on the pulse by staying on top of the most relevant ideas, questions, groups, files and people across your organisation. Ask questions and receive answers in real time. Sort, share and search for answers quickly and easily, and work with your community to decide the best answer to help others with the same question in the future.

INTEGRATE EASILY

A learning technologies customer is not a consumer. You are a creator, producer, problem-solver, innovator. Open innovation is empowering. Create the platform you want, rather than being forced to compromise. Adapt to changing circumstances and future-proof your investment. Be true to your mission.

FREEDOM TO INVEST WHERE IT COUNTS

Get rid of expensive software licensing and locked-down contracts. Save up to 80% of the total cost of ownership compared to other leading enterprise-class learning platforms. Maximise your budget and invest where it really counts – your learners.
